

Fighting Ferrara, Camden, Maine and Amica for the Boundary Opinion

Purpose

The purpose of this website is to warn others of the perils of the Maine “Legal” system, Real Estate market, and of doing business with Amica Insurance Company, First National Title Group, Wells Fargo and PNC Banks.

Story.

This is (in my opinion) the horrific story of a professional couples’ 17-year ordeal after they purchased a home in the Stonehurst Subdivision in Camden, Maine which includes being abandoned by their long-term Homeowners Insurance Company Amica and left to defend themselves against Malicious Prosecution in the corrupt Maine “legal system,” fraud in the development and sale of property in Camden, the ongoing attempted theft by a neighbor Michael Ferrara of part of the couples’ property in by adverse possession, bullying by Police and residents of the subdivision, the malicious

prosecution of Craig Brown for two unfounded felonies, constant electronic stalking, harassment and interference in Craig Brown's consulting business by Police and others nationwide for over a decade, employing a prostitute in an attempt to break up Craig Brown's marriage, prosecution of five federal and state lawsuits Craig Brown filed in an attempt protect his property rights and business, and collusion by New England medical providers to deny Craig Brown adequate medical care while in litigation.

-

This illegal activity (again, in my opinion) has been supported and condoned by the Town of Camden, the Knox County DA Geoff Rushlau, the Maine Attorney General, licensed Maine Surveyors, the Maine Bar Association, Maine State Judges Jeffery Hjelm, Warren and Ellen Gorman, and the Maine Supreme Court, Federal judges Margaret Kravchuk, George Singal, James Rich, and Joseph Di CLerio, Amica Insurance Company, First National Title Group, and Wells Fargo and PNC Banks.
